POMeSYS Updates

Dear \${FNAME}Customer|Guest|\$,

TwinPeaks is dedicated to improving our software and rolling out updates to users as they become available. Below are some of the improvements and enhancements now available:

- When entering a Quick Payment, users can now choose ACH/E-Check as a payment option.
- Users can now filter the Sales Order Register by Customer Category.
- Users can group the Production List Report by Item Category.
- When printing Unscheduled Orders, the program will print 0 quantities for all items.
- Users running the Production by Customer report can now filter by multiple routes.
- Users now have the option to turn off page breaks by Customer and Ship To in the Weekly Order Guide Report.
- Special Prices can now be entered by the Ship To location. Please note that this option disables special pricing by customer.
- Discount % can now be entered by Ship To location. Please note that this option disables the discount field by customer.
- Users can now combine core items on the Packing Report.
- Users can now run the Route Commission report by item + customer, which will show a standard customer % unless there is a specific item commission %.
- Users can now edit Packing Label reports.

If you have any questions about these updates, please call 626-793-7223 or email info@twinpeaks.net.
