

POMeSYS Updates

Dear \${FNAME}Customer|Guest|\$,

TwinPeaks is dedicated to improving our software and rolling out updates to users as they become available. Below are some of the improvements and enhancements now available:

- A new report, Irregular Order Report allows users to see which orders have zero-priced items and if there are any discount percentages for those items. This can be found under Reports > Orders > Irregular Order Report.
- When Remote customers place their orders on hold, both the Host and the Remote user will receive a notification email.
- The Packer's Sheet and Baker's Sheet Form D can now be edited after being memorized.
- The Salesperson Commission report now shows the commission percentage.
- Users can now generate Recurring Orders by Route.
- Users can now generate Unscheduled Orders by Route.
- Users can now choose to create separate credit memos when generating Unscheduled Orders.
- A new report, Weekly Sales Recap, allows users to view receivables information based on Route or Customer for one week at a time. This is found under Reports > Receivables > Weekly Sales Recap.
- Users can now filter the Packing/Slicing Report by customer category.
- On the Customers Not Yet Ordered function (Transactions > Manage Orders), users can now add a permanent comment to appear (created within the ship-to), can mark an order as 'canceled' for the day, and can add a note for the day.

If you have any questions about these updates, please call 626-793-7223 or email info@twinpeaks.net.
